

## JUMO heatTHERM-AT and JUMO heatTHERM-DR

### Type 603070, Surface-Mounted or Room Thermostat Versions

#### Special features

- **PUSH IN**®-connection technology - **reduced installation time by 50 %**
- Stable switching point position due to ambient temperature compensation (standard)
- Max. switching capacity 16 A, 230 V
- Tested according to DIN EN 14597
- Operating life at least 250,000 switching cycles for TR and TW
- Switching point deviation during the entire operating life of up to  $\pm 5 \%$
- Protection type max. IP54
- UL approval (extra code 061)

#### Brief description

High application flexibility and the latest connection technology are the essential equipment features of this new thermostat series.

The thermostat case is suitable for all common installation types such as wall mounting, immersion sleeve, and contact fastening. It can be used universally and reduces the variant range because different mounting types must no longer be taken into account.

The JUMO heatTHERM-DR (type 7+8) type is a specific variation with a special housing bottom section for DIN rail or wall mounting. As a result, easy mounting on mounting rails TH35 according to DIN EN 60715 (e.g. in control cabinets) is possible. This variant considerably reduces the mounting time. The flue gas automatic reset temperature limiter JUMO heatTHERM-AT locks the gas/oil vessel that is connected in parallel with the wood vessel to a chimney.

For these international innovative surface-mounted thermostats with "Push-In"® terminal technology, the connection wires are only inserted into the terminal point up to the stop - that's it! No tool is required for connecting the wire or strand with a ferrule and the wiring becomes safer. In this manner, the costs and time required for connection are considerably reduced compared to the conventional screw terminal.

The "Push-In"® terminal technology allows direct switching of loads up to 16 A at 230 V AC. The installation costs can be reduced further because a load contactor is no longer required.

Available are temperature controllers (TR), temperature monitors (TW), safety temperature monitors (STW), safety temperature limiters (STB) as single or double thermostats, and flue gas temperature monitors (ATW).

Approvals according to DIN EN 14597, DGRL, and UL indicate the high quality standards for this product series.

Type 603070/0170 (TR/STB)

Type 603070/0001 (TR)

Type 603070/0002 (TW)

Type 603070/0002 (TW)

#### Approvals/approval marks (see "Technical Data")

## Technical data

### Switching function

<b>Temperature controller TR / temperature monitor TW</b>	<p>If the temperature on the temperature probe exceeds the setpoint value, the microswitch is activated by the transmission mechanics and the electrical circuit is opened or closed.</p> <p>If the temperature falls below the selected setpoint value (by the amount of the switching differential), the microswitch is reset to its initial position.</p>
<b>Safety temperature monitor STW</b>	<p>If the temperature on the temperature probe exceeds the setpoint value, the snap-action switch is activated and the electrical circuit is opened or closed. If the temperature falls below the selected setpoint value (by the amount of the switching differential), the snap-action switch is reset to its initial position.</p> <p>The electrical circuit 1-2 opens when the probe of STW (STB) and STB cools down to the negative temperature range, but it closes again automatically if the temperature rises.</p> <p>If the measuring system is destroyed (i.e. if the expansion fluid emerges) the pressure in the diaphragm drops and permanently opens the electrical circuit.</p>
<b>Safety temperature limiter STB</b>	<p>If the temperature on the temperature probe exceeds the switching point, the snap-action switch is activated, the electrical circuit is opened or closed, and the snap-action switch is mechanically locked.</p> <p>The unlocking difference depends on the control range. Exact values are available from the respective types. They are also available upon request. If the temperature falls below the selected setpoint value (by the amount of the unlocking difference) then the snap-action switch can be manually unlocked again.</p> <p>The electrical circuit 1-2 opens when the probe of STW (STB) and STB cools down to the negative temperature range, but it closes again automatically if the temperature rises.</p> <p>If the measuring system is destroyed (i.e. if the expansion fluid emerges) the pressure in the diaphragm drops and permanently opens the electrical circuit. Unlocking is no longer possible.</p>

### Temperature compensation

When the ambient temperature on the switching head and the capillary deviates — from the calibration ambient temperature of +22 °C — a switching point offset occurs. This switching point offset is reduced to a minimum due to the temperature compensation.

## Technical data

### Case

	Type 5 + 6	Type 7 + 8
<b>Case</b>	Case bottom section: PA (reinforced) Color: Silver-gray RAL 7001 (for TZ 061 black) Case lid: ABS with inspection glass (PMMA) Color: cobalt-blue RAL 5013 (for TZ 061 light-gray, RAL 7035)	
<b>Setpoint adjustment</b>	TR Switching point can be adjusted externally with the rotary knob. TW, STW, STB, ATW Switching point can be adjusted with a screwdriver once the case lid has been removed. The set switching point can be checked through the inspection glass.	-- Switching point can be adjusted with a screwdriver.
<b>Protection type</b>	IP40 or IP54 (for TZ 402) according to EN 60 529	IP20 according to EN 60 529
<b>Cable inlet</b>	Cable gland M20 x 1.5, for cable-Ø 6-12 mm	Cable connection directly on  terminals
<b>Capillary</b>	Ø 1.25 mm - min. bending radius of the capillary 5 mm - material: copper (Cu) or stainless steel (CrNi, 1.4301)	
<b>Case fastening</b>	Pipe mounting with clamping belt for pipe diameter 15-100 mm, thermowell mounting, wall mounting	Wall mounting, DIN rail installation TH35 according to DIN EN 60715
<b>Weight</b>	Approx. 0.2 kg	

### Electrical data

<b>Electric contact</b>	Snap-action switch with single-pole changeover contact	
<b>Switching capacity</b>	TR / TW / STW / ATW	STB
	On the N/C contact (contact deck 1-2): AC 230 V +10 %, 16 (2.5) A, cos φ = 1 (0.6), DC 230 V +10 %, 0.25 A On the N/O contact (contact deck 1-4): AC 230 V +10 %, 6.3 (2.5) A, cos φ = 1 (0.6), DC 230 V +10 %, 0.25 A	On the N/C contact (contact deck 1-2): AC 230 V +10 %, 16 (2.5) A, cos φ = 1 (0.6), DC 230 V +10 %, 0.25 A On the signal contact (contact deck 1-4): AC 230 V +10 %, 2 (0.4) A, cos φ = 1 (0.6), DC 230 V +10 %, 0.25 A
<b>Electrical connection</b>	 contact (plug-type terminal) "Push-In <sup>®</sup> " terminal technology: patented connection technology by Weidmüller GmbH & Co. KG, Detmold, Germany	
<b>Connection cross section</b>	0.75 to 2.5 mm <sup>2</sup> fine wired (single-wire, fine wired with ferrule)	
<b>Switching reliability</b>	To ensure the greatest possible switching reliability, we recommend a minimum load of: AC / DC = 24 V, 100 mA for silver contacts AC / DC = 10 V, 5 mA for gold-plated contacts (TZ 702)	

## Operating data

Switching point accuracy	TR, TW	STW, STB with a setting range of:			
		+20 °C to +80 °C		+70 °C to +130 °C	
	Switching differential 2.5 %	In the "first half" (+20 °C to +50 °C)	In the "second half" (+50 °C to +80 °C)	In the "first half" (+70 °C to +100 °C)	In the "second half" (+100 °C to +130 °C)
	In the upper third of the scale $\pm 3$ %, at scale beginning $\pm 6$ %	+0/-8 K	+0/-5 K	+0/-12 K	+0/-5 K
Temperature compensation	When the ambient temperature on the switching head and the capillary deviates — from the calibration ambient temperature of +22 °C — a switching point offset of approx. -0.1 K/K occurs (switching point change referring to the ambient temperature change, measured at limit value +120 °C permanently set and capillary length 2,000 mm). This switching point offset is reduced to a minimum due to the standard temperature compensation.				
Limit value temperatures	For transport and storage: -30 °C to (see maximum temperatures during operation)				
	During use: 0 °C to +80 °C, for TZ 061 UL approval max. +65 °C (type 7 max. 55 °C; type 6+8 max. +50 °C)				
	For pipe mounting: max. pipe temperature +120 °C				
Rated position	According to DIN 16257, rated position 0 to rated position 90 (different rated positions upon request)

## JUMO heatTHERM-DR

Thermostat for DIN rail installation TH35, according to DIN EN 60715, type 8

<sup>a</sup> Upon request - minimum order quantity 100 pieces.

## Order details

### Surface-mounted thermostat JUMO heatTHERM, type 603070

Minimum purchase order 100 pieces

#### Order code (1) Basic type

603070 JUMO heatTHERM with single-pole snap-action switch

#### (2) Basic type extension

0001	Temperature controller (TR)
0002	Temperature monitor (TW)
0020	Safety temperature monitor (STW) or flue gas temperature monitor (ATW)
0070	Safety temperature limiter (STB)
0120	Temperature controller / safety temperature monitor (TR/STW)
0170	Temperature controller / safety temperature limiter (TR/STB)
0202	Temperature monitor / temperature monitor (TW/TW)

#### (3) Type

5		Surface-mounted thermostat, with thermowell, flange sleeve, capillary, or as contact probe
6		surface-mounted room thermostat, with spiral probe
7		DIN rail thermostat, with capillary
8		DIN-rail room thermostat, with spiral probe

#### (4) Control range / limit value range 1 [°C]

016	-10 to +40	TR, TW	
021	0 to +50	TR, TW	
026	0 to +120	TR, TW	
028	0 to +200	TR, TW, STB	
040	+20 to +80	STW	
043	+20 to +150	TR, TW, STB	
064	+50 to +300	TR, TW, STB	With thermowell, select process connection 76
671	+70 to +130	STW, STB	
384	+20 to +280	ATW	Only with process connection 80

Further control ranges / limit value ranges up to 350 °C upon request (up to +500 °C without approval)

#### (5) Control range / limit value range 2 [°C]

000	Single thermostat		
016	-10 to +40	TR, TW	Adjustable
021	0 to +50	TR, TW	Adjustable
671	+70 to +130	STW, STB	Adjustable

Further control ranges / limit value ranges up to 350 °C upon request (up to +500 °C without approval)

#### (6) Limit value 1 STW/STB

000	for adjustable control range
095	95 °C
100	100 °C
110	110 °C

## Order details

60003204				2 × 8 × 150 mm					
60003174				2 × 8 × 200 mm					

Thermowell set		Thermowell with sealing collar		Pressure spring	Clamp for strain relief	Plate for surface-mounted thermostat	Screw for surface-mounted thermostat
Suitable for 2 probes							
Part no.	Type	Abbreviation	Connection	Ø sleeve × fitting length EL		Material	Pressure loading capacity at +150 °C
60003175	Thermowell for JUMO heatTHERM, 2 probes	49	G 1/2	15 × 100 mm		Stainless steel / 1.4571	48 bar
60003206				15 × 150 mm			
60003176				15 × 200 mm			

Adapter piece for thermowell <sup>a</sup>		Material	
Part no.			
00507273		Steel / nickel-plated	

<sup>a</sup> necessary for thermowell with process connection "20" or "23".
