

JUMO DELOS HP

Precision Pressure Transmitter with Switching Contacts and Display

Application

- Hydraulic plants
- Machine and plant engineering
- Test benches
- Laboratory equipment

Brief description

The JUMO DELOS HP high-precision electronic pressure switch with analog output is predestined for use on test benches, with laboratory equipment, and for construction of special machines. These areas frequently demand precise measurement and a configuration adapted to the measurement task.

The stainless steel sensor welded to the process connection features a high burst safety, which is in part as much as 5x the measuring range. Consequently, the plant is reliably protected against medium leaks in the event of a malfunction.

Default nominal measuring ranges of 160 and 600 bar are available. These can be rescaled with a ratio of 1:4 allowing the user to conduct a variety of measurement tasks with only a single measuring device. Depending on the application, the following output versions are available: 1x PNP or 2x PNP switching outputs or 1x PNP switching output and an analog output signal.

The process pressure is visualized by a large and positively-lit LCD display.

Configuration is easy to perform either on the device itself or via the easy-to-use setup program.

For enhanced legibility, the case can be rotated by $\pm 160^\circ$ and the display can be mirror-imaged by 180° during installation. The JUMO DELOS HP also features an auto-zero function for subsequent zero point adjustment.

Type 405054

Block diagram

Special features

- Linearity 0.1 %
- Measuring range scaling 1:4
- Large, vibrant display
- Easy configuration on the device or using the setup program
- Any installation position possible with rotatable case ($\pm 160^\circ$)
- Available with flush-mounted process connection
- Units of measurement can be selected
- Software display rotatable by 180°

Technical data

General information

Reference conditions	DIN 16086 and DIN EN 60770
Sensor system	Thin film on metal body (piezo-resistive)
Admissible load changes	> 10 million
Position	Any
Mounting orientation	Device upright, process connection at the bottom
Calibration position	Possible on-site or through setup (20 % of nominal measuring range)
Zero point correction	
Display	Positively-lit display
Alignment	Display rotatable by 180° with software Case rotatable by $\pm 160^\circ$ (use supplied combined tool)
Size	Display 16 mm x 26 mm, font size 7 mm, 2x 4-digit
Color	Standard operation: amber-colored Malfunction: amber-colored (text "Err", error code 1 to 9 flashing) Setup interface occupied: red
Switching status display	K1, K2
Unit of measurement	bar, kPa, MPa, psi, %
Operation	
On device	With the control element beneath the sealing screw with combination tool or screwdriver 0.5 x 3 or Allen key af 2
Setup interface	Pin 5 of the M12 x 1 round plug

Input – nominal measuring range

Relative pressure	Nominal measuring ranges begin at 0 bar.		
Nominal measuring range	160	600	bar
Overload capability ^a	320	900	bar
Burst pressure	800	1800	bar

^a All measuring ranges can be overloaded up to -1 bar (vacuum resistant).

Output

All analog outputs in three-wire connection/switching outputs: open collector, PNP switching

Analog output Current Output 475 Output 476 Voltage Output 477	4 to 20 mA and 1x PNP switching output 0 to 20 mA and 1x PNP switching output 0 to 10 V and 1x PNP switching output
Measuring range scaling (turn down)	1:4
Step response time (analog input) T90	≤ 100 ms
Switching output Output 470, 475, 476, or 477 Output 471 Switching type Switching function Switching point Release point Hysteresis Input attenuation Input delay	1x PNP switching output 2x PNP switching output N/C contact / N/O contact Window / hysteresis Can be configured within nominal measuring range (> release point) Can be configured within nominal measuring range (< switching point) Can be configured within nominal measuring range 0 to 99.99 s 0 to 99.99 s
Contact rating Voltage drop from U _B Switching capacity Switching cycles Response time Short-circuit proof	PNP ≤ 2 V In ≤ 250 mA, out ≤ 1 mA > 10 million ≤ 20 ms Yes
Load check, current Pulse period Periodic protective circuit for overcurrent	2 s; T _{ON} 40 ms f = 0.5 Hz Display: Err3 switching output K 1, Err4 switching output K 2
Burden Current 4 to 20 mA, three-wire 0 to 20 mA, three-wire Voltage DC 0 to 10 V, three-wire	$R_L \leq (U_B - 6.5 \text{ V}) \div 0.022 \text{ A } (\Omega)$ $R_L \leq (U_B - 6.5 \text{ V}) \div 0.022 \text{ A } (\Omega)$ $R_L \geq 10 \text{ K}\Omega$

Mechanical features

Process connection	
Material	Stainless steel 316L
Process seal	The measuring system is welded and therefore entirely free of seals ^a .
Sensor	
Material	Stainless steel 630
Case	
Material	Stainless steel 316L
Threaded sleeve M12 x 1	Stainless steel 316L
Case seal	VMQ silicone; FDA-compliant
Display	PA (polyamide)
Sealing screw of control element	
Material	Aluminum 3.2315
Surface	Anodized surface
Seal	VMQ silicone; FDA-compliant
Weight	200 g with process connection 504 (G 1/2)

^a Pressure transmitters with process connection 521 and 523 are supplied with external FPM seals.
Note the medium resistance of the sealing material!

Ambient conditions

Admissible temperatures	
Medium	-25 to +100 °C
Ambient	-25 to +75 °C
Ambient temperature -50 °C	Restricted function: only stationary use, risk of cable break, display without function
Storage	-40 to +85 °C
Admissible humidity	
Operation	100 % rel. humidity incl. condensation on the device outer case
Storage	90 % rel. humidity without condensation
Admissible mechanical load	
Vibration resistance ^a	20 g, 10 to 2000 Hz
Shock resistance ^b	50 g for 11 ms, 100 g for 1 ms
Electromagnetic compatibility	Only with 4-pin connecting cable and grounded case!
Interference emission ^c	Class B
Interference immunity ^c	Industrial requirement
Protection type ^d	IP67

^a IEC 60068-2-6

^b IEC 60068-2-27

^c EN 61326-2-3

^d EN 60529 (in mated condition with suitable counterpart)

Accuracy

Relative pressure	Nominal measuring ranges begin at 0 bar.		
Nominal measuring range	160	600	bar
Linearity ^a	0.1	0.1	% of the measuring span of the nominal measuring range
Accuracy at +20 °C ^b	0.25	0.25	% of the measuring span of the nominal measuring range
Accuracy at -20 to +75 °C ^c	0.5	0.5	% of the measuring span of the nominal measuring range
Long-term stability ^d	0.2 % of the measuring span of the nominal measuring range per year		

^a Linearity after limit point setting

^b Includes: linearity, hysteresis, repeatability, deviation from measuring range start and measuring range end

^c Includes: linearity, hysteresis, repeatability, deviation from measuring range start and measuring range end, thermal influence on measuring range start and measuring span

^d EN 61298-1

Auxiliary energy

Voltage supply U_B^a 0 to 20 mA, three-wire, output 476 4 to 20 mA, three-wire, output 475 0 to 10 V, three-wire, output 477 Admissible voltage supply not reached Maximum voltage supply exceeded > DC 34 V	Nominal voltage DC 24 V DC 12 to 30 V DC 12 to 30 V DC 14 to 30 V Display: Err 5 The specified features are no longer met.
Reverse voltage protection	Yes
Power consumption	≤ 45 mA without load, ≤ 545 mA with load 2x PNP
Electrical connection	Round plug M12 x 1, 4-pin, A-coded (for assignment see "Connection diagram", page 6)
Electrical circuit	SELV

^a Residual ripple: the voltage peaks must not exceed or fall below the specified voltage supply values!

Connection diagram

Output 470		Output 471		Output 475 - 477

Order details

(1) Basic type	
405054/000	JUMO DELOS HP - Precision Pressure Transmitter with Switching Contacts and Display ^a
405054/999	JUMO DELOS HP - Precision Pressure Transmitter with Switching Contacts and Display, Special Design
(2) Input – nominal measuring range	
465	0 to 160 bar relative pressure
468	0 to 600 bar relative pressure
(3) Output	
470	1x PNP switching output
471	2x PNP switching output
475	1x PNP switching output and 1x analog output, 4 to 20 mA, configurable ^b
476	1x PNP switching output and 1x analog output, 0 to 20 mA, configurable ^a
477	1x PNP switching output and 1x analog output, 0 to 10 V, configurable ^a
(4) Process connection	
504	G 1/2 DIN EN 837
511	1/4-18 NPT DIN EN 837
521	G 1/4 DIN 3852-11
523	G 1/2 DIN 3852-11
(5) Process connection material	
20	CrNi (stainless steel)
(6) Electrical connection	
36	Round plug M12 x 1
(7) Extra codes	
000	None
100	Customer-specific default setting (specify parameters in plain text)
591	Choke in the pressure channel
624	Oil and grease free

^a This JUMO product is licensed under United States and Canadian patents. Purchasers of the JUMO product outside of the United States and Canada should advise JUMO of any planned sales of products incorporating the JUMO product into the United States and Canada.

^b Factory setting – the analog output can be configured by the user.
